# Welcome

Welcome to a brand new world. Welcome to the world where you will be given the chance to explore, dream and discover. Explore your limits and the unlimited beautiful and inspiring places that exist all around the European continent. Dream about your future; imagine yourself after having experienced a true multicultural exchange. Discover yourself, discover people around you, discover new places. Let yourself try and choose. Choose between 1000 days of summer!

A Summer University is an event that takes place during summer between one and four weeks in most of the cities where AEGEE is present. Understanding and exploring the multicultural dimension of the European continent, removing national borders, fighting for tolerance and creating open-minded citizens are some of the reasons why 20 to 50 young Europeans from all over Europe come together to each Summer University to taste the diversity of multiculturalism.

The Summer University Project was born in 1988 with the intention to promote the European Integration. This project is the main tool of AEGEE to attain this difficult but fascinating target. Since that time, it has been continued every year thanks to the active involvement of many AEGEE antennae.

The activities carried out during a Summer University range from academic to multicultural activities such as classes on foreign languages or different courses on technical themes but also to get familiar with Finnish culture, Spanish history, Greek mythology, learn how to sail, attend a photography course in Turkey or hike in Polish woods, etc. Moreover, each Summer University follows a concrete theme throughout its duration that can be related to European Integration, International Politics,

Active Citizenship, Education, Culture, Peace, Personal Development and many more.

At a Summer University you will be given the chance to taste different food, to listen to different music, to dance with that music, to become good friends with people from various countries, you will learn to say *hi* in another 20 languages, you will feel free, you will love, you will experience, you will learn new things and do things you had not imagined before...

In short, you will feel the AEGEE spirit, you will feel what a Summer University is!

Explore. Dream. Discover  
1000 days of summer.

# Types of Summer University

## **LANGUAGE COURSE AND LANGUAGE COURSE PLUS**

If you would like to learn a foreign language, a Language Course is a perfect Summer University for you! Our language courses are organized by AEGEE locals. They last 2 to 4 weeks and give participants the chance to learn a language during at least 16 hours of tuition per week. The fee of €70 per week includes tuition, lodging, two meals per day (of which one is warm) and social programme.

The Language Course Plus is of increased quality concerning the tuition. The great difference during its duration of 2 to 4 weeks, participants receive at least 20 hours of intensive language tuition per week, provided by professional teachers. The fee of €90 per week includes tuition, lodging, two meals per day (of which one is warm) and social programme.

## **SUMMER COURSE**

Summer Course is a course about a specific topic that does not focus on learning a language. It has a duration of minimum 12 days and up to 4 weeks. Participants receive at least 10 hours of tuition per week. The fee of €70 per week includes tuition, lodging, two meals per day (of which one is warm) and social programme.

## **TRAVELLING SUMMER UNIVERSITY**

Travelling Summer University is organized by 2 or more locals and lasts 2 to 4 weeks. As the name suggests the main focus is put on travelling: the group stays in at least 4 different places and usually visits even more. Apart from that every Summer University of this type follows a certain specific theme, often connected to cultures of visited places. The fee of €90 per week includes lodging, two meals per day (of which one is warm), all travelling costs, and social program.

Every Summer University organized this year follows a specific theme throughout the entire event. However, if the Summer University you chose has a cooperation with an AEGEE Working Group or Project, you are given the chance to gain even more knowledge about specific topics through interactive workshops, activities or games. Topics cover the most current issues within environmental, political, educational and other fields.

According to the Corpus Iuridicum AEGEEense (CIA) the Summer University Coordination Team can make exceptions to general rules of Summer Universities organization. For this reason some of the events in this booklet differ slightly from the above-mentioned Summer University types.

# Akragas in the Kingdom of Seacily

*Akragas is the old greek name of Agrigento, when our beautiful city was one of the most flourishing places of the Magna Grecia. It's the place where living means to embrace a whole culture with all its peculiarities.*

We love this land and we would like to spread our feelings all over Europe, making AEGEE members know why many people from all over the world want to come and visit our unique places. The main aim of our event is to organize a wonderful experience through an Italian language course, in order to present all our cultural peculiarities, both italian and sicilian ones, to share with European people interested in knowing better who we are.

*Akragas in the Kingdom of Seacily* wants to empower these elements with a summer event with a lot of exciting activities: we will teach you the Italian language, and of course you will be involved in lots of activities: we will go through the streets of Agrigento, we will discover the historical heritage, we will swim in a blue sea, under the warm sun of the beaches of San Leone and the famous Scala dei Turchi until the sunset. We will discover the ancient Greek glory, of the Valley of the Temples, sport activities and much more!

# History Surfing

*This year, Germany's most romantic city, Heidelberg, is inviting you to accompany us on a journey into the heart of history!*

Starting in the Stone Age with Homo Heidelbergensis and moving up to modern times we are planning on chronologically working our way through the German history timeline. Every day we are going to leap into another era, slowly proceeding from bygone days to the modern age. We are not only intending to explore the romantic period which is so typical for Heidelberg, but also darker sides of history, such as the medieval age and the national socialist era.

However, if what you are expecting is a boring history lesson, you will be surprised! Because these two weeks will be everything but boring! You are not going to spend your days in some dark corner of a tedious room or in a library

with dusty old books. And don't expect a rigorous teacher rocking you to sleep with his monotonous voice either.

Instead, prepare yourself for an inspiring and fascinating cultural journey through time and experience Germany's history in an interactive and exciting way! With our assistance you will get the chance to design your own classes, be your own guides, improve your presentation skills and practice your German by speaking in public.

So dress up in your unique epochal outfit for one of the liveliest lessons you have ever seen and join us on this history surfing adventure! Apply now and let the journey begin!

## Activities

- & Interactive workshops and presentations
- & Visits of important historical sites
- & Day trips to Heidelberg's immediate surroundings
- & Outdoor activities: walks, bike tours, boat trips, swimming in the lake
- & Outings, pub crawls, theme parties, games night, European Night

# Andalusia: lost paradise?

3 Cultures vs AEGEE's 43 Nationalities!

*Al-Andalus is remembered nostalgically as a lost paradise where three religions were able to live together in society in tolerance and respect.*

Convinced that we can learn from the past, we want to introduce the Spanish history to you. We will choose different ways to show you the three cultures that formed Granada's identity through

lessons, workshops, visits, games. Come and visit Muslim, Christian and Jewish cultures in one trip, on one land!

And all together as members of AEGEE as we are we will try to prove that paradise is still possible through the aims and actions of AEGEE, through the simple fact that we are all from different countries, religions and with different languages, one week in Granada will be the image of *lost paradise* and we will work to give that example to everybody

as a reflection about our own present.

Let us discover to you Granada as the meeting point between Occident and Orient and you, show us your culture! You will not regret it: a new destination, a new experience and a week full of culture, games and crazy events and parties. Are you in or out?

# Roadmap to Utopia

A cyclist's guide to sustainable survival

*Since the second industrial revolution, world population has more than quadrupled. Science has stretched the boundaries of our knowledge beyond the imaginable. Two world wars have been fought, followed by capitalism and communism warring for supremacy.*

Today's western world is based on consumption; people are continuously stimulated to buy more and wealth is distributed unequally. How did the current state of affairs come to exist? Will it be able to sustain our way of life? What are the alternatives? During our trip in the Flatlands, we will explore the impact the developments of the past century have had, their benefits, opportunities, dangers and downsides. Of course, we will make sure you have a great time and you can relax at the beach and beautiful countryside!

In the *Martini* city, the largest city in the north of the Netherlands, you will find a friendly place to spend your vacation. The city centre is one of walking distances, the

green parks invite you to enjoy the weather and you can sail or swim in the nearby lake. The large number of students (one in seven citizens!) makes sure the city is alive around the clock, since bars never close!

## Activities

- & Go sailing
- & Get cosy at the campfire on the worlds widest beach at the Grey monks island, Schiermonnikoog
- & Do the Moses (Wadlopen)
- & Get to know the Dutchies (Dutch language and culture lessons, history of Groningen)
- & Participate in talks and workshops on the sustainability and history of economic and political thought
- & Zigzag for life
- & Hug a cow and cuddle a goat at a typical Dutch farm
- & Fierljep your way through the flat countryside
- & See seals
- & Take your bike and do the Don Quixote (visit a traditional Dutch windmill)
- & Bring-and-paint your own mug

But even the most beautiful city in Europe has to face environmental threats such as

pollution. Would you dare be the one to save our city's environment and beauty?

Participate in sport activities such as bike trip to Versailles castle, attend workshops on recycling issues and learn from nature how to build instead of destroying it.

There is no boundary for kissing between European people. So why would they be any for visiting European countries? Would you dare be the one to break these boundaries?

Lets debate about European conflicts and how to solve them, learn the tips about how to get an EU visa from a non-EU country, learn from mobility program representatives about the advantages of student mobility in Europe.

But Paris is also all about the fun. Would you dare to dance all night long? Would you dare to swallow snails and taste our best wines? But most of all, would you dare to French Kiss?

## Activities

- & Biking to Versailles
- & Treasure hunts on sustainable development

## HIGHLIGHTS

Patra, Kalamata

Well then, this Summer University is ideal for you!

AEGEE-Patra is organizing the Patrademy, the first European School Summer University which is a perfectly balanced, serious and entertaining event, combining both a European School 1 and a Summer University!

The European School 1, which will be organized in cooperation with AEGEE-Academy, is a one-week training course for people who want to discover the potential of AEGEE, learn how to run an AEGEE local and organize successful projects. We hate boring lectures, so you will learn through case studies, simulation games, energizers and exercises in groups! After you graduate the Patrademy, on the second week of the event, we will have the chance to experience more greek culture and relax on the beaches of south Peloponnese.

Get ready for sand, sun and sea!

Musts for the Patrademy are people with the spirit to enjoy the sun and partying all night, but as well as waking up with a smile on their faces for some learning! We need open minded people that are able to have fun with others and make their AEGEE spirit contagious!

You will spend your summer in an unforgettable way, learn about the Greek culture, make friends from all over Europe and live a unique experience

Can you handle the heat? Take the challenge if you dare! Come to Patra!

# What if Glenti Could Save the World?

*The end is near. The end of the world is coming. That is the message that is broadcast by all TV channels and radio frequencies. There is a great deal of panic and anxiety in every country, waiting the so-called last day.*

There are people supporting the idea that the Mayans' Spirits prophesied that in December 2012 the world will just change, maybe to something better, rather than be destroyed, but still nothing is for sure.

However, there is a bunch of guys in Peiraias, who instead of just waiting to see

what is going to happen, they have decided to do something big, before this day comes. That is when, they heard voices, saying that they can save the world. They were instructed to gather 35 Europeans they see fit for the quest and introduce them to the *glenti* condition. Glenti cannot be translated, nor described. It can only be felt and experienced. And to do so, the chosen ones will have to pass a

series of trials, such as cooking, food tasting, dancing, swimming, partying in the unique Peiraias-style, until they reach the desired, glenti condition. After that, things will be easy. Every European will return home, and without even knowing, they will spread around the glenti, like a divine disease. Only when all people around the globe are feeling the glenti, the Spirits will have enough power to save the Earth!

So, AEGEE-Peiraias is already searching for the best participants ever and is inviting them to Greece and spread around the greek glenti! They will have the chance to cook and dance while they will be taking some rest and party time in the island of Kefalonia and finally come to know the meaning of the life-saving Glenti.

# How You Met Our Country

Whats the first image that comes to your mind when you think about Spain? Is it that we eat too much and party way more? That all men dress up like *tore-ros* and all women as *sevillanas* dancers. Does envy run through your veins when you think about our siestas?

Well, we cannot tell you if that is true or not until you get here and see it for yourself! Once you arrive we will let you see how wrong you were in many aspects and how true other stereotypes are.

To do so we will have twelve long days and eleven unforgettable nights ahead of us. We will do all kind of things! To begin with we will visit the most beautiful villages in our region (Santillana del Mar, Potes, Fuente Dé, Comillas, etc) and we will also walk along some routes surrounded by breathtaking landscapes. Along with these villages and routes we will also take you to awesome sport activities!

We will attend entertaining courses and workshops where we will give you an

insight to our country, its regions and its peculiarities. Spain is much more than the commonly heard stereotypes! Not falling for that? I will simply say that we are Legen... wait for it... dary!

This is an event that you will love. You will hike and go sightseeing throughout Cantabria, you will be able to go sunbathing and swimming. Experience our culture, and build up your own idea of our incredible country.

Do Not Miss Out!

# Discover Undiscovered

*You think you have been everywhere and you need another map?  
You will change opinion when you appear in the city of rocks, city that rocks.*

According to the Bible heaven was in the territory of Armenia. Yes, yes, you are right. You will be immediately convinced when you do your first step in Armenia. Everything is various here, both life and nature and climate. You are in a sunny valley and in a few minutes you are on the top of a snowy mountain. This is unique country for unique people. Only in Armenia you can live on 1,200 meters high and swim in a sweet lake which is the second largest alpine lake in the world, 1,900 meters above sea level and only here you can see the pinkest city in the world Yerevan which is 2794 years old. This sc will give you a unique chance to see the stars from another point of view, to learn graffiti and how to make a city more beautiful.

And there are a lot of myths and secrets that are waiting for you to be discovered.

# Balkan Funk

This summer, AEGEE-Beograd and AEGEE-Zadar are inviting you to an amazing adventure! Join us and discover the contagious spirit of the Balkans that will definitely take over your heart and leave you with a big smile on your face.

You will discover Serbia and Croatia, two beautiful countries with a rich history and culture, which you will become a part of. You will learn how to dance kolo, a traditional collective folk dance,

and how to play picigin, a unique beach game that comes from Split, the capital of Dalmatia. You will try the typical cuisine of this area, and learn about the traditional music. In other words, you will learn how to see these countries through the eyes of a local.

From the bustling nightlife of Beograd and the cultural sights of Novi Sad, to the

beautiful beaches and ancient Roman ruins of Croatia's Dalmatian coast, the places we will visit will leave you breathless.

But as great as these places are, what really makes this region so special is the spirit. Here, people are in love with life. They are relaxed and easy going, always have time for their friends, easy to talk to, and always up for a challenge.

So, there you have it: an opportunity to spend fourteen days discovering new, interesting cultures, making new friends, travelling a lot during the day and partying even more during the night - basically, enjoying life to its fullest!

Take this opportunity and come back home with great memories (if you come home at all, you will love it so much here that you might not want to leave)

### BEOGRAD

Beograd, the capital of Serbia, is a colorful mixture of the East and West. It lies on two international waterways, at the confluence of the rivers Sava and Danube which surround it on three sides. Because of its position, it has rightly been called *Gateway to the Balkans* and the *Door to Central Europe*.

Beograd is a city full of culture, passion, and energy. Renowned for its nightlife, this city will surely thrill you. In Beograd, there's always something to do and something to see.

### NOVI SAD

Novi Sad (the name meaning *New Plantation* in Serbian) is Serbia's second largest city, and the main administrative centre of the Autonomous Province of Vojvodina. Since it was founded in 1694, Novi Sad became the centre of Serbian culture and earned its nickname Serbian Athens.

Novi Sad is a major cultural center,

Split is always busy, full of outdoor cafes and restaurants, but at the same time relaxed - in Split, no one is in a rush, and there is always tomorrow.

### ZADAR

Zadar, a coastal city in northern Dalmatia, is a charming city where history comes to life. Alfred Hitchcock called the sunset in Zadar the most beautiful sunset in the world (and we agree!).

This city is the home to unique attractions such as the Sea organ, an architectural object and an experimental musical instrument which plays music by way of sea waves, and the The Greeting to the Sun, an installation that shows a magical play of light in the Zadar evening.

### ZRČE BEACH,

Zrće Beach, situated on the island of Pag, is a major party destination, also known as the Croatian Ibiza. This long pebbled beach with crystal clear sea is the place of great entertainment where the party never stops.

Izmir, Cesme, Foca, Fethiye, Ephesus

*The ancient AEGEEans have been recorded to have been using colour for cures and ailments. They worshipped the sun, knowing that without light there can be no life. They looked at nature and copied it in many aspects of their lives.*

We all had a stressful year when rushing after life, we also fought for future during EB2012. In this summer we would like to bring you together with the colours of life and colours of Izmir. Bouncy people of Izmir are living in the heart of Sun, Sea and Forest, that is to say Yellow, Blue and Green. Hence forth Izmirians are well cured and with full of life.

Aristotle discovered that by mixing two colours, a third is produced. But in this summer, we will produce more colours by mixing our energy, our power, our cheer, our soul and our heart. We will create our own rainbow.

Colours have a great deal to offer us and can be found all around us in nature. We need to expand our awareness of colour so that we can truly benefit from nature's

gifts so that colour becomes a way of life, not just a therapy. A therapy that will cure you with colourful sun-kisses.

### KATOWICE

Located in Silesia in southern Poland, it is a central district of the *Silesia* Metropolis, with a population of 2 million. This city is also the center of culture, industry and transportation in southern Poland. Seeing lots of parks, squares, nature reserves and ecological areas, Katowice is still a large coal and steel center. It has several coal mines, steelworks and even one foundry of non-ferrous metals.

### DĄBROWA GÓRNICZA

Beautiful city located about 20 km away from Katowice with extremely varied landscape. On the one hand, industrial plants dominate the urban landscape, on the other hand, sites of beauty of the nature. The city can surprise with how many interesting leisure-time opportunities it has.

The next on the way of our travel is Oświęcim, which is well known from Auschwitz-Birkenau camp complex created in 1940 on the outskirts.

### KRAKÓW

One of the best-known Polish cities, shrouded in myth and legend. The city, which used to be Polish capital in former times, is now adored by tourists from all around the world for its contrasts: tradition vs the present. In Kraków you will get

to know the past and find the way to the future. This is the second largest and one of the oldest cities of Poland. Situated on the Vistula River in the Lesser Poland region, it dates back to the 7th century.

### LVIV

We will continue with the unforgettable panorama of Lviv. You will find yourself in tight embrace of elitist art, national traditions and warm hospitality. The city will fascinate you with its beauty. Do not be surprised to hear a mix of languages as various nations left their trace here: German orders, Italian pace of life, Polish humour, Ukrainian generosity. One visit is worth more than a thousand words!

### DNIPROPETROVSK

One of the largest business and industrial centers of Ukraine. It is also known as the third capital of the Russian Empire, everything can be found here. Dnipro is modern, Dnipro is chic. It's a great place to party and do sports such as climbing or sailing. Our philosophy is: We are playing, we are living. And all of these breathtaking proposals are waiting for you. We enjoy them and so will you if you decide to join us, so don't hesitate and let's make it together!

The easternmost of the Canary Islands. It stands as the fourth largest of the islands and it is known for being the place where the nature and the art are mixed. We will be visiting Cueva de los Verdes, Jameos del Agua, Timanfaya, Los Hervideros, Casa de César Manrique, Mirador del Río, Teguise, Famara.

### FUERTEVENTURA

The second largest of the Canary Islands after Tenerife and the oldest one. We will be delighted by the Dunes of Corralejo and Jandía beaches, among the best beaches of the world.

### GRAN CANARIA

If Gran Canaria had to be described with a single word, that would be *contrast*. Urban area in the northeast (Las Palmas de Gran Canaria), dunes in the south

(Maspalomas), flat area in the east (Telde), scary cliffs in the western, wavy ocean and pebble beaches in the north (Agaete and Gáldar) and vegetation and mountains in the center (Roque Nublo, San Mateo and Teror). All this in 47 Km of diameter and in a 1,560km<sup>2</sup> area. I think that you will understand now why is the island called Gran Canaria: a Miniature Continent.

### LAS PALMAS DE GRAN CANARIA

With almost 400.000 inhabitants, is the most populous city of the Canary Island and the ninth in Spain. Las Palmas de Gran Canaria is the largest city of the European Union outside of the continental Europe. VOLUME 2

# On the way of St. James

## Follow the Stars to the Ocean

*Do you want to experience a different and unique Summer University? AEGEE-León and AEGEE-A Coruña present our travel summer university: On the way of St. James, vol. 2: Follow the stars to the ocean. We will repeat the success of last year, but in a better way! Is that possible? More days, more activities and more cultural visits.*

In this travel summer university, we will visit several cities in the province of León, and walk about 100 km of the Way of St. James departing from Sarria. At the end, we will arrive to Santiago de Compostela, and we will spend some days getting to know the culture, traditions and costumes from Galicia, and also visiting the city of A Coruña, where we will be able to rest from the long walking route.

What are the stars' route? The discovery of the Tomb of the Apostle St. James the Greater at the beginning of the 9th century soon brought about a stream of travellers making the pilgrimage to the site, which is today the city of Santiago de Compostela. From the middle of the 20th century, the Way of St. James has been experiencing an international rebirth, which combines its spiritual and socio-cultural tradition with its ability to attract the tourists, and it comes

across as a new meeting place opened to all kinds of people and cultures.

## LEÓN

León is a beautiful Spanish city, with more than 150,000 inhabitants, capital of an ancient kingdom and the owner of the purest and most beautiful Gothic Cathedral in Spain. The city of León was settled over the lands occupied by the Roman Legio VII Gemina. During the Middle Ages it became the capital city of the Kingdom of León, one of the biggest in the Iberian Peninsula. This splendour of medieval and later periods still can be seen in its art heritage. Besides the cathedral, León has lots of interesting monuments (San Isidoro, San Marcos), that you will see.

## ASTORGA

Once called Asturica Augusta by the same Roman legionnaires that founded León, the city of Astorga, shares a lot of similarities with the city of León, even though the paths of their history differed greatly at times. The most important building in

this city are its 15th century cathedral and the Palacio Episcopal de Astorga, a palace designed by the world-famous Catalan architect Antonio Gaudí, to replace the old palace of the bishop which was destroyed in a fire. But there is a lot more to this historical city than just these two special buildings. From the ruins of the ancient Roman walls, to the narrow streets in the city centre, everything in Astorga has got a story to tell. And you might want to know why it is known as the city of chocolate.

## SANTIAGO DE COMPOSTELA

This city was declared a World Heritage City by UNESCO in 1985, in view of its urban beauty and monumental integrity, as well as the profound echoes of its spiritual

significance as an apostolic sanctuary and the destination of the Middle Ages' most important religious and cultural movement: the Way of St. James pilgrimage.

## A CORUÑA

A Coruña is a busy commercial port of the Atlantic Ocean and the second largest city in Galicia, in northwestern Spain. Located on a peninsula and surrounded by the ocean, it has been the point of departure of many different people and cultures. Today, A Coruña is a modern city with its beaches, a wide cultural offer, a busy nightlife and about 250,000 inhabitants. The city is well-known for the Roman lighthouse known as Tower of Hercules, which has been in continuous operation since it was built and that, since June 2009, has been a UNESCO World Heritage Site.

### LJUBLJANA

Ljubljana, the capital city of Slovenia, is the largest Slovenian city and the cultural, educational and economical centre of Slovenia. It is youth friendly, has nice cafes, bars, best places to party and dance. There are also nice green parks for sport games, picnics or relaxing walks. With its rich history, Ljubljana offers interesting see sights, a tophill situated castle with an amazing view on Alps and on the whole city, many unique bridges, a beautiful riverbank of Ljubljanica and other attractions. You have the chance to borrow a bicycle, cycle around and discover the beauty of this petite but exiting city.

### NOVA GORICA

Nova Gorica is situated on the west, near the border with Italy. When the town of Gorica, capital of the former Slovenian province of Goriška, was awarded to the Italians under the postwar Treaty of Paris in 1947 and became Gorizia, the new socialist government in Yugoslavia set about building a model town on the eastern side of the border. They called it *New Gorica* and erected a chain-link barrier between the two towns.

### BOVEC

The effective capital of the Upper Soča Valley (Gornje Posočje), Bovec has a

great deal to offer adventure-sports enthusiasts. With the Julian Alps above, the Soča River below and Triglav National Park at the back door, there is an abundance to choose from. You can spend a week hiking, kayaking, mountain biking and, in winter, skiing at Mt Kanin, Slovenia's highest ski station.

### PORTOROŽ

Sea, wind, salt, Mediterranean scents, palms, roses and evergreen plants, relaxation, entertainment and companionship are just a few of the words to easily introduce Portorož, a sea resort in the heart of Europe.

### PIRAN

Picturesque Piran, sitting at the tip of a narrow peninsula, is everyone's favourite town on the Slovenian coast. Its old town is a gem of Venetian Gothic architecture and full of narrow atmospheric streets and compact houses, which rise in steps from the coastal lowland into the hills and give the whole area a typical Mediterranean look.

Known as Franconian Rome, the city of Bamberg is built on seven hills, each of these crowned with a church or castle. ### **KARLSRUHE**

Founded in 1715, the city of Karlsruhe is the youngest city in our travel summer university through time. All roads in the inner city are focused on the Palace in the center, like the spokes of a wheel, which

created a very special layout and led to its nickname *Fan City*. Karlsruhe is located near the French border and combines high-tech industry with old monuments and parks to chill out - a perfect place to discover German culture and lifestyle.

### **TRIER**

Welcome to Trier, Germany's oldest city! Still today, you can walk in the footsteps of the Roman emperors who built the city more than 2,000 years ago, and many of the ancient buildings now belong to the UNESCO World Heritage: the Amphitheater, the Basilica of Constantine, and the city's famous landmark Porta Nigra. *Being green and sensitive for others is a way of life. And not only for grasshoppers (and eco-freaks). With us you can have the green spirit and see the world a bit differently than you do in your everyday life while exploring the most beautiful sights of Central Europe.*

If you are up to being greener and you want to cross the heart of Europe, come on, let us be your guide on the Ecomino!

Let's see how you can do more about the environment easily and see the life of those who are not as lucky as we are. Our trip will start in Romania. In Cluj-Napoca we are going to have environmental workshops, city tour, hiking, and treasure hunt. The next destination is Hungary. Accommodation is going to be in a pretty inn of Piliscsaba, a university town in the Pilis Mountains. But you will also see beautiful Budapest and be guided there partly by homeless people. During the *invisible exhibition* you can see the world with the eyes of the blind. After saying goodbye to Hungary we are heading to Poland. First stop is Kraków where you will see the global village and experience how the poorest live their lives. We will go to the mountains and have mysterious night tours but also there will be games, such as the ultimate survivor. As an optional program Auschwitz museum can be visited.

Needless to say that we will have time to celebrate all our achievements at hot Central European parties until you really see the world green. Cheile Turzii, Cluj-Napoca, Piliscsaba, Dorog, Budapest, Gliwice, Krakow, Wisla, Katowic are waiting for you to discover them through this unique mission!

## HIGHLIGHTS

Udine, Aquileia, Cividale d. Friuli,  
Trieste, Venice, Padua, Ostia, Rome

*Yes, it is true. We, AEGEE-Udine, AEGEE-Padova and AEGEE-Roma, have just brought Julius Caesar back to life! But this is just the first step: we want to bring back with him also his Respublica!*

We will start from Udine and Friuli Venezia Giulia, where Caesar once gained most of his success before becoming the famous ruler we all know.

After the strategic planning in Venice and a little bargaining with Marco Polo, the next step is Padua: there we will be inspired by the Trojan hero Antenor, that once came to Italy with Eneas and founded of this city. We will also ask the advice of Galileo: he will help us with his deep knowledge of geography and the stars.

At this point, we are ready! Let's pass the Rubicon all together and conquer Rome for the second time in history!

Of course, Caesar is now a little bit disoriented and upset for the great changes happened in more than two thousand years to his beloved empire, but we are planning cultural and language workshops to let him catch up a little bit.

For this, we will need also the help from 25 participants (yes, Caesar, they are some kind of magistri equitum!) enthusiastic about Italy and its cultural diversity and interested in languages and linguistics, strong enough to resist this epic march and also the great triumph parties after each successful battle!

Come with us, throw the dice with Caesar and become part of the legend: it is your chance to be a hero!

### UDINE

Udine is the biggest city of this small Italian region Friuli Venezia Giulia. Thanks to its border position with Austria and Slovenia and the lower Alps, the region was the pathway to Italy for all barbarian tribes and armies throughout centuries, and that is also the reason for its great cultural diversity. In Udine we will see the inheritance of the Republic of Venice and also the famous Castel: a legend wants it to have been built from Attila, kings of the Huns, in order to see Aquileia burn.

### AQUILEIA

Aquileia was once the second most important Roman colony thanks to its position. There are an archaeological museum and different Roman sites. Besides, there is also an important basilica with amazing late antique mosaics.

### VENICE

There is no need to describe Venice! Just a little fact that maybe not everybody know: before being worldwide known as the city of love and culture, it originally was a little village built in the middle of the marshes in order to avoid barbarian raids.

### PADUA

Padova is the city of the saint without a name (S. Antonio), the bar without doors (Pedrocchi) and the square without grass (Prato della Valle). But what does it mean? We will tell you in Padua where you will see all these sights

and even much more! You can discover the 12th century university, the oldest in Europe after the Alma Mater in Bologna, the ancient city walls and bridges that have seen many past battles, the Specola Tower where Galileo was used to study the sky, the ancient botanic garden, the amazing Palazzo della Ragione!

### ROME

According to the legend Rome was founded by Romolo, descending nephew of Enea the Trojan hero! Since the beginning Rome has been a meeting point for

different cultures, capital of the Empire that reunited East and West. Here you can enjoy in each corner some evidence of past ages: Classical Age, Middle Age, Renaissance and Modern Age. Walking through Rome is the same of time travelling! Let's discover together the true atmosphere of the *Caput Mundi* city!

### **BERLIN**

Berlin is the capital of Germany as well as the country's largest city and a cultural melting pot. Being one of the largest cities of Europe at the heart of the continent, Berlin has experienced political turmoil and upheaval throughout the last century mainly due to World War II and the subsequent division of the city by the Berlin Wall. After the reunification in 1990 the city has seen a major influx in cultural life, for example sporting events, festivals and exhibitions which makes it a unique place holding possibilities for everyone.

### **LEIPZIG**

Leipzig, a city of half a million in the North of Saxony is a buzzing center of culture, trade and education. Looking back on a rich history of over 800 years, Leipzig is home to the world's oldest remaining trade fair and the second oldest university in Germany. After having been the first antenna in post-communist

Eastern Europe, Leipzig's AEGEE group has just recently been re-founded. It was here in Leipzig, where the communist regime of East Germany was overthrown after the mass demonstrations of the civic movement and the revolutionary spirit still lives on. Leipzig has a lively student scene and is famous for its diverse pubs, bars and clubs, a city that never sleeps.

### **WROCLAW**

Some call it WrocLove, some call it Venice of the North. It is one of the biggest cities in Poland and it is definitely one of the most popular places to study in. Full of clubs and active people but also with a great history and amazing Old Market where behind diamonds the spectrum of crime awaits.

### **GÖRLITZ**

The symbol of a city, divided between two countries, now - a symbol of German-Polish cooperation and open borders. German Görlitz and Polish Zgorzelec, two cities becoming one.

# Information

## How to Apply For a Summer University?

First of all, in order to be able to apply you have to become a member of AEGEE. On the website: [intranet.AEGEE.org/antenna/antennae\\_directory](http://intranet.AEGEE.org/antenna/antennae_directory) you can check where the closest AEGEE local is and how to get in touch with its members.

To become a member you have to pay a membership fee that depends on each local. Then, the next step is to register yourself in the AEGEE Intranet ([intranet.AEGEE.org](http://intranet.AEGEE.org)) and create an account there. As soon as your local approves your membership you will become an AEGEE member with all rights.

Having got an Intranet account you can now contact the Outgoing Responsible of your antenna who will help you with the application procedure. Applying is done online on the website of the Summer University Project ([www.AEGEE.org/su](http://www.AEGEE.org/su)) where all information about the Summer Universities can be found.

You can choose up to 3 Summer Universities in order of preference. Fill in all the fields. Tip: write a nice motivation letter including the reason why the organizing team of the Summer University of your choice should choose you over the other applicants. Now the system will sort all applications (on the basis of gender, age, nationality, etc.) and you will know which Summer University you are preselected to. Later on the Summer University organizers will decide on a selection of participants. Once you are selected you have to confirm your participation so that the organizers know you still want to come. And the journey begins!

Do not forget to **apply before 24th of April!**

# Visa Information

Even though we as AEGEE are striving for a European continent without borders there are still many of us that need a visa this summer to get to their desired Summer University. If you are not sure whether you need a visa for your Summer University you can look it up at the CIBT visa database website (see below).

Keep in mind that during summer time and already when the Spring semester ends, a lot of people are applying for all different kinds of visas. Therefore, be prepared that your visa procedure might take a bit longer than usual. Also, you need to take into account the time to get all your documents ready on time.

The basic timeline for this is:

- A** Check the requirements for your visa application. Do this when you pick your Summer University.
- B** Ask the organiser for your invitation letter, recommendation letter from your university, your travel tickets, photos, passport, application etc. Make sure to have this ready at least 4 weeks in advance!
- C** If you have any doubts about your letter of invitation, you should contact the organiser and clarify everything before you apply at the foreign mission – that will probably save you time.
- D** When the foreign mission asks for additional documents, try to get them as soon as possible. Concerning the visa fees, please consult with the foreign mission in advance and double check with their webpages. Be prepared for any kind of problem.

If you get your visa denied, either consult with organisers whether they can do something about that (make a phone call etc) or you can anytime write to [visa@AEGEE.org](mailto:visa@AEGEE.org) and ask for help or more information.

# Frequently Asked Questions

## 1. How to apply for a Summer University?

**A** Become a member of AEGEE.

**B** Get an AEGEE account at [intranet.aegEE.org](http://intranet.aegEE.org).

**C** Check the Summer University booklet on [www.AEGEE.org/su](http://www.AEGEE.org/su) and decide which Summer Universities you would like to take part in.

**D** Submit your application (link on [www.AEGEE.org/su](http://www.AEGEE.org/su)) including a motivation letter in which you explain who you are, why you want to participate in the particular Summer University you chose, etc. Attention: the selection is based mainly on the letter so be specific and do a good self-PR!

## 2. When to apply?

The application system will be open from 1st of March till 24th of April but firstly get in contact with your AEGEE local to find out about the internal deadline for applying. Take into consideration that in order to be valid your application has to be approved by your home local first.

## 3. How much is the fee and what does it include?

The application fee is €2,50. This fee is charged to your local for each application and it is up to your local if you have to pay it separately or if it is included in your membership fee. Apart from the application fee there is the fee of the Summer University itself depending on the Summer University type: Language Course (LC) and Summer Course (SC): €70 per week, Travelling Summer University (TSU) and Language Course Plus (LC+): €90 per week. The fee includes: lodging, breakfast and at least one warm meal per day, tuition and social program. In some Summer Universities you may be asked for an extra fee for excursions or other activities. This additional fee is optional and you are not obliged to pay it! The obligatory fee, the optional fee and the way of payment are described in the Summer University booklet.

## 4. How is the lodging?

Lodging is described in the Summer University

booklet. It can vary between student dormitories, youth hostels, tents, gym, etc.

### 5. What about the quality?

The quality of all Summer Universities is controlled by the Summer University Coordination Team. Generally it can be observed that the project quality raises every year. But do not forget that AEGEE is not a travel agency and that the Summer University organizers are not professionals but students who invest their time and effort to make this great experience possible for you. Mistakes can happen but the organizers will always do their best to make your stay unforgettable! Remember: the group creates the spirit and it is up to you what your personal outcome of the Summer University will be like!

### 6. The selection procedure

Your application will undergo several steps:

- A** it will be approved by your home local and will be sent to the Summer University Coordination Team (suct).
- B** the suct runs the preselection and you are preselected for one of the (up to 3) Summer Universities you indicated in your application.

The whole preselection is done completely automatically and changes afterwards are impossible. Therefore, it is not sure that you will be preselected for the same Summer University as your friend etc., as the process is meant to provide the organizers with enough applications that are well balanced in matters of nationality (country), age and gender.

- C** your application will be forwarded to the organizers who then do the final selection. The selection is completely up to the local but the organizers usually try to achieve the balance of genders, nationalities, age. Beside these, the motivation letter stays the most important criterion. The local publishes a selection list and informs all the people who applied for their event about the results.

### 7. What does it mean being on the waiting list for a Summer University?

Being on the waiting list does not mean that you cannot go to a Summer University at all. Every organizing local sets a certain deadline for the selected people to confirm their participation. If they fail to do that or they cannot participate in the event anymore, people from the waiting list may take their places. It could help to get in contact with the organizers to ask what are your chances to still be accepted. You may also ask them to remove you from the list so that you can answer to the open calls of Summer Universities with vacant places.

### 8. How to find out about free places in other Summer Universities?

In the application form you will be asked if you want to know about free places in other Summer Universities and if yes, if you wish to get the info on a mailing list. You will be then subscribed to a special mailing list where open calls about vacant places will be posted. Last-minute offers may be posted on the public mailing list AEGEE-SU-L and the website. Only people who applied for a Summer University during the official application period will have the opportunity to apply for an open call.

### 9. Visas or passports needed?

In order to travel to certain countries a passport and sometimes even a visa may be required. Getting a passport can be time-consuming and a visa even more: in the worst case the procedures can take up to 2 months. When applying pay particular attention to the starting date of the Summer University of your choice! And remember that you will get to know only in May if you are selected for the Summer University in question! Generally, most of the AEGEE locals are experienced in the visa-getting process as visas are unfortunately still an everyday life problem for AEGEE members. You can also contact the Visa Freedom Working Group for advice and help. But in any case, the visa-getting process will require a good communication and collaboration also from your side!

# The Summer University Coordination Team

The Summer University Project is centrally coordinated by the Summer University Coordination Team (SUCT). The SUCT is a team of four AEGEE members elected at an Autumn Agora (the General Assembly of AEGEE) plus one appointed member from the Board of Directors (the Comité Directeur). Within the team there are different positions: Project Manager, Public Relations Responsible, Publications Responsible and Information Technology Responsible.

The SUCT is responsible for the good functioning and development of the project during one year. Throughout this period various tasks are being carried out: from approving Summer Universities registered by AEGEE locals to publishing PR materials and printing the booklet that includes information about all Summer Universities. Moreover, the SUCT helps Summer University organizers by providing them with advice on how to organize such an event successfully and informs future participants about the application procedure and the general concept of AEGEE Summer Universities.

After all Summer Universities are finished the SUCT collects evaluations submitted by participants to check the quality of the events.

What is more, every year the SUCT organizes a training for future Summer University organizers: the Summer University Project School (SUPS). It is done in cooperation with the Academy (the AEGEE Human Resources Working Group).

The current Summer University Coordination Team consists of:

Project Manager: Hará Kogkou (AEGEE-Peiraias)  
Public Relations: Magda Kasprzyk (AEGEE-Kraków)  
Publications: Maurits Korse (AEGEE-Enschede)  
Information Technology: Costas Deltouzos (AEGEE-Patra)  
Comité Directeur appointed member: Alma Mozgovaja

For 25 years the AEGEE Summer University project offers great summer courses and holidays throughout the European continent. They are organised for students by students. This year the project offers 81 summer universities for over 2300 students organised by 128 local AEGEE groups. AEGEE-Europe manages this project through the Summer University Coordination Team and can be contacted through [www.aegee.org/su](http://www.aegee.org/su).
