Face to face with Executives from Science & Industry

Challenges of Leadership & Career Opportunities at Roche Diagnostics

The International School for Graduate Studies (ISGS) once more invites executives from internationally renowned companies to present step stones of business careers to PhD candidates and Master students. These networking dialogs highlight the professional and personal competencies required on the leadership level, and give hints for assistance within decision-making processes. In the course of this informal meeting the young researchers will have the opportunity to present their own career plans and receive honest feedback.

Discuss the challenges of leadership with

Mr. Martin Haag, Plant Manager Roche Diagnostics GmbH
