In 2012, the International School for Graduate Studies (ISGS) once more invites high-flying executives from renowned companies to present some insight in the milestone stones of their careers to PhD candidates and Master students. These networking dialogs highlight the professional and personal competencies required on the executive level, and give hints for assistance within decision-making processes. In the course of this informal meeting the young researchers will have the opportunity to present their own career plans and receive honest feedback.

Meet Prof. Dr.-Ing. habil. Peter Liggesmeyer

As a highly renowned expert in the field of software engineering, Professor Liggesmeyer is head of the Department of Software Engineering at TU Kaiserslautern and the Scientific Director of the Fraunhofer IESE. His vast experience, excellent teaching skills and cooperative support for young professionals make him an ideal partner for an informal chat on career advice.

Date: Monday, November 12, 2012, 5:15 pm - 7:00 pm
Venue: TU Kaiserslautern, Building 36, Room 262 (ISGS Meeting Place)
Language: Mainly English
Participants: (Post-)Doctoral & Master students, graduates & research associates of the University of Kaiserslautern
Registration: Binding email registration (until November 9) to doktoranden@isgs.uni-kl.de >> Subject: „Prof. Liggesmeyer“

About Professor Peter Liggesmeyer:

Prof. Liggesmeyer studied Electrical Engineering with main focus on Data Engineering at the University of Paderborn. Since 2004, he is leading the task group for Software Engineering: Dependability. Since then he is also the Scientific Director of the Fraunhofer Institute for Experimental Software Engineering in Kaiserslautern (IESE). In addition to these he is also the founder and speaker of the Fraunhofer-Alliance "Embedded Systems". Since this year he becomes the Vice-President of the “Gesellschaft für Informatik” (GI). More details on his Vita.

About Fraunhofer IESE:
The Fraunhofer Institute for Experimental Software Engineering (IESE) was formed in 1996 and is now one of 60 institutes of the Fraunhofer Society. The association IESE in Kaiserslautern and has over 200 employees. The institution is networked with the local science and industry, including computer science, mathematics and engineering, electrical engineering and mechanical engineering. The IESE is not only locally but globally a leading research institution in the field of software systems development. The importance of software, for example in the automotive industry, or for information systems in health, as well as for administrative purposes is steadily increasing. The Fraunhofer Institutes have joined the development, implementation and optimization of prescribed procedures and look for complex solutions and application-oriented system.
