Face to face with Executives from Science & Industry
Manager International Business Development and former Executive Vice President of proALPHA Software GmbH
Wolfram Menser

In 2015, the International School for Graduate Studies (ISGS) once more invites high flying executives from internationally renowned companies to present step stones of global careers to PhD candidates. These networking dialogs highlight the professional and personal competencies required in the industry, and give hints for assistance within decision-making processes. In the course of this informal meeting the young researchers will have the opportunity to present their own career plans and receive honest feedback.
